Product Oversight and Governance

Our Product Oversight and Governance framework places customer centricity at the heart of our business. When we set our processes and standards, the main objective is to ensure the delivery of good customer outcomes. We managed our products throughout their lifecycle and ensure that products are designed and distributed in a way that it will support our customer's financial objectives and it will prevent foreseeable harm for our customers. Our framework maintains oversight of the following:

- The product design process
- Identification of a clearly defined target market
- Product scenario testing
- Distribution strategy
- Product documentation
- On-going monitoring and review
- Fair value of our products
- Service provided to our customers

All new products and material product changes are subject to our product governance framework, and they will go through the applicable assessment process before they are marketed or distributed to customers.

As part of our on-going review, we assess our products against several factors and metrics to monitor how we deliver good customer outcomes. When we fail to deliver, we will act immediately to remediate the situation.

How is value assessed?

In line with FCA guidance, Berkshire Hathaway International Insurance Limited assesses product value by comparing the overall cost of the product with the quality of the services provided. When assessing the quality of the services provided, we consider the FCA's value measures metrics as well as information relating to the distribution cost of the product, and to consider what percentage they are of the overall price paid. We have defined internal benchmarks for assessing the balance of these factors and where a product falls short of our standards, we will take action to ensure fair value is always provided to customers.

The value of the product will be assessed on an annual basis (or more frequently if necessary) to ensure it continues to provide value to customers.

This product has been assessed as providing fair value.
